		<b><i>Additional Information</i></b>

2.2.1 The institution assesses the learning levels of the students, after admission and organises special Programmes for advanced learners and slow learners

After completion of every semester and after declaration of results, each department carry out the results analysis and present it in IQAC meeting. After result analysis list of slow learners and advance learners are prepared.

Slow learners are encouraged to meet the faculty beyond class hours and are helped in the clearance of their doubts/difficulties and in the clarification of concepts. Some Departments conduct remedial classes on need-basis. Special attention is paid to the needs of the slow learners students. Apart from remedial classes in their respective subjects, special sessions on English speaking and writing skills are conducted by the Department of English for them. This results in an increase of their proficiency in English.

Advanced learners are encouraged to attend workshops and seminars, both, in the College and elsewhere. The Institution facilitates their participation in relevant programmes thereby providing them with practical experience in their respective field of study. Endeavours are also made to provide such students with opportunities to acquire skills like public speaking, creative writing etc. which are beyond the scope of their regular syllabus. Academically-advanced learners are also encouraged to attempt scholarship examinations, aptitude tests and screening tests. Preparation for and participation at such events further hones the skills and enhances the knowledge of these students.

Few examples of result analysis are listed here. Similarly list of advance and slow learner is also listed here. Detailed analysis is available in each department.
